Single Participant: Melanie H

Analysis by Behavior

Initiative and Risk Taking

1) To what extent does this person ... Take prompt action when unexpected opportunities arise.

Initiative and Risk Taking

2) To what extent does this person ... Accept responsibility for her/his mistakes.

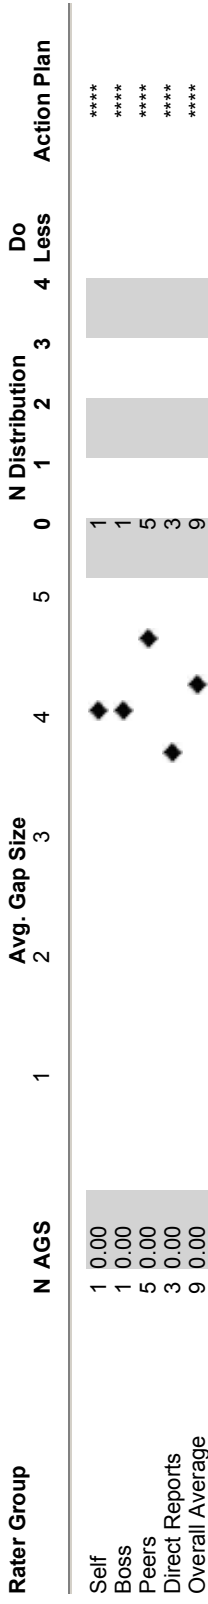

Current Performance...how often does this occur? = C 1 - Almost Never, 2 - Sometimes, 3 - Generally, 4 - Almost Always, 5 - Always
 Expectations...how often should this occur? = E 1 - Almost Never, 2 - Sometimes, 3 - Generally, 4 - Almost Always, 5 - Always

This detailed item analysis report links each item to its corresponding skill or theme. This report identifies the number of people who answered each item and how they responded (N or % Distribution).
 Recommended Action Plan: (*) identifies areas of strength. The number of (*)s indicates the level of strength (** or ****). Increase = do more of that behavior. Decrease = do less. Self data is not included in the Overall Average data line.
 Note: If this report includes the AGS or Average Gap Size, you will be able to compare the gap or difference between what a rater group sees you doing compared to the performance expectations that rater group has for you.

Analysis by Behavior

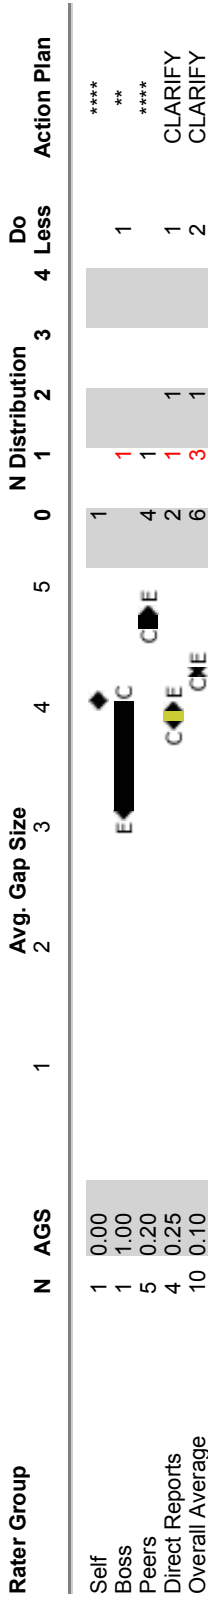

Initiative and Risk Taking

3) To what extent does this person ... Persevere despite organizational obstacles.

Initiative and Risk Taking

4) To what extent does this person ... Display energy and drive to accomplish personal or work goals.

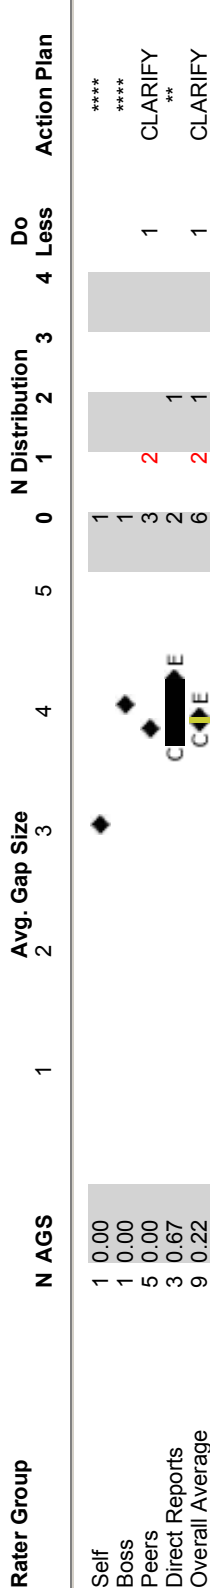

Current Performance...how often does this occur? = C 1 - Almost Never, 2 - Sometimes, 3 - Generally, 4 - Almost Always, 5 - Always
Expectations...how often should this occur? = E 1 - Almost Never, 2 - Sometimes, 3 - Generally, 4 - Almost Always, 5 - Always

This detailed item analysis report links each item to its corresponding skill or theme. This report identifies the number of people who answered each item and how they responded (N or % Distribution).
Recommended Action Plan: (*) identifies areas of strength. The number of (*)s indicates the level of strength (** or ****). Increase = do more of that behavior. Decrease = do less. Self data is not included in the Overall Average data line.
